BUILD WEALTH THROUGH REAL ESTATE

## OREGON'S PREMIER PRIVATE DEBT FUND

Launched in April 2023, Cetan Opportunity Fund is a new private real estate debt fund, specializing in business purpose short-term, small-balance loans for real estate investors, developers, builders, and small businesses. This Fund is the second investment offering by its Managers, who have a successful track record with their initial offering, Cetan Income Fund, launched in 2017. The firm's investment objective is to generate stable, attractive risk-adjusted returns for investors through real estate secured loans in Oregon and SW Washington.

Management's deep lending expertise and local market knowledge inform all lending decisions. Loans are selected using comprehensive underwriting of borrowers and properties. The loans are secured by residential and commercial real estate to purchase, construct, rehab (fix and flip), and develop the properties.

The principals have 60+ years of combined lending and real estate development experience in Oregon. They know the region and market well, have established relationships, and are uniquely qualified to vet loans and manage the Fund.

## OREGON'S APPEAL

Oregon has experienced over 20 years of strong economic growth, with consistently increasing GDP and record low unemployment rates during this period. Growing economic sectors include chip manufacturing, software and IT, transportation, warehousing, and scientific research. The state has historically maintained a relatively high in-migration rate above the national average as a magnet for people seeking the West Coast lifestyle at a lower cost. Yet, Oregon's home production deficit ranks 4th in the nation. This imbalance between supply and demand has led to a historic housing shortage. Cetan Opportunity Fund is designed to assist with access to capital for real estate investors, builders, and developers to address this need. Since it's only open to Oregonians, it is a way for investors to help meet this need in their home state.

## PROVEN FUND MANAGEMENT

The Fund managers apply a variety of fund and risk management tactics to deliver consistent risk-adjusted returns. These include minimal and temporary outside leverage, risk-based loan pricing, and conservative underwriting with comprehensive due diligence of borrowers and the underlying real estate assets. The loan portfolio is a diversified mix of small-balance residential and commercial real estate loans that turn over quickly due to short-term maturities. The pooled nature of the Fund spreads risk across all loans. Collectively, these tactics drive fund performance and mitigate credit, interest rate, and inflation risk.

Unlike many hard money lenders, Cetan is a private relationship lender and forms strong partnerships with borrowers. Issues are identified early and addressed quickly. Historically, this lending strategy has resulted in a low loan loss rate below 0.1%.

Cetan Opportunity Fund is an excellent choice for investors seeking to diversify their portfolio while earning an attractive risk-adjusted quarterly return.

## IDEAL FOR INVESTORS SEEKING
